American Journal of Physiology: Endocrinology and Metabolism

No. 1. JANUARY 1990

Regulation of liver angiotensinogen and kidney renin mRNA levels by angiotensin II
A. Nakamura, H. Iwao, K. Fukui, S. Kimura, T. Tamaki, S. Nakanishi, and Y. Abe E1

Defective regulation of thyroxine 5′-deiodinase in brown adipose tissue of *ob/ob* mice
A.-L. Kates and J. Himms-Hagen E7

Use of a variable tracer infusion method to determine glucose turnover in humans
J. M. Molina, A. D. Baron, S. V. Edelman, G. Brechtel, P. Wallace, and J. M. Olefsky E16

Single lactotroph responses to dopamine, angiotensin II, and culture duration
J. M. Anderson and M. J. Cronin E24

Importance of blood glucose concentration in regulating lipolysis during fasting in humans
S. Klein, O. B. Holland, and R. R. Wolfe E32

Cholecystokinin receptors and vagal nerves in control of food intake in rats
J. Garlicki, P. K. Konturek, J. Majka, N. Kwiecien, and S. J. Konturek E40

Androgen receptor of rat penis is downregulated by androgen
K. K. Takane, F. W. George, and J. D. Wilson E46

Impaired aldosterone production by long-term infusion of atrial natriuretic factor
M. Nagano and E. L. Bravo E51

Interleukin 6 stimulates hepatic glucose release from prelabeled glycogen pools
D. G. Ritchie E57

Interleukin 1 stimulation of the hypothalamic-pituitary-adrenal axis
A. R. Gwosdow, M. S. A. Kumar, and H. H. Bode E65

Endurance training, not acute exercise, differentially alters β-receptors and cyclase in skeletal fiber types
P. J. Buckenmeyer, A. H. Goldfarb, J. S. Partilla, M. A. Piñeyro, and E. M. Dax E71

Plasma amino acid kinetics during acute states of glucagon deficiency and excess in healthy adults
C. Couet, N. K. Fukagawa, D. E. Matthews, D. M. Bier, and V. R. Young E78

Effects of a growth hormone pulse on total and forearm substrate fluxes in humans
N. Møller, J. O. L. Jørgensen, O. Schmitz, J. Møller, J. S. Christiansen, K. G. M. M. Alberti, and H. Ørskov E86

Effect of insulin on protein synthesis and degradation in skeletal muscle after exercise
T. W. Balon, A. Zorzano, J. L. Treadway, M. N. Goodman, and N. B. Ruderman E92

Growth-promoting properties of the internal milieu of pregnant and lactating rats
M. Chiang, S. M. Russell, and C. S. Nicoll E98

Measurement of non-steady-state free fatty acid turnover
M. D. Jensen, V. Heiling, and J. M. Miles E103

Mechanisms underlying enhanced glycogenolysis in livers of 3,5,3′-triiodothyronine-treated rats
S. Nebioglu, P. Wathanaronchai, D. Nebioglu, E. L. Pruden, and D. M. Gibson E109

Dissociation of the effects of epinephrine and insulin on glucose and protein metabolism
P. Castellino, L. Luzi, S. Del Prato, and R. A. DeFronzo E117

Lipogenic enzyme activities and mRNA in rat adipose tissue at weaning
C. Coupe, D. Perdereau, P. Ferre, Y. Hitier, M. Narkewicz, and J. Girard E126

Involvement of vitamin D_3 with cardiovascular function. III. Effects on physical and morphological properties
R. E. Weishaar, S.-N. Kim, D. E. Saunders, and R. U. Simpson E134

Direct evaluation of acidification by rat testis and epididymis: role of carbonic anhydrase
C. R. Caflisch and T. D. DuBose, Jr. E143

Estimation of whole body protein synthesis from oxidation of infused [1-^{14}C]leucine
M. Yagi and M. Walser E151

Pregnancy does not alter the metabolic clearance of 1,25-dihydroxyvitamin D in rats
S. K. Paulson, K. K. Ford, and C. B. Langman E158

Involvement of organum vasculosum of lamina terminalis and preoptic area in interleukin 1β-induced ACTH release
G. Katsuura, A. Arimura, K. Koves, and P. E. Gottschall E163

Effect of estrogen and progesterone on metabolism of apoprotein B in baboons
R. S. Kushwaha, D. M. Foster, P. H. R. Barrett, and K. D. Carey E172

Measurement of myocardial glycogen synthesis in diabetic and fasted rats
M. R. Laughlin, W. A. Petit, Jr., R. G. Shulman, and E. J. Barrett E184

Catecholamines increase lymphocyte β_2-adrenergic receptors via a β_2-adrenergic, spleen-dependent process
L. J. H. Van Tits, M. C. Michel, H. Grosse-Wilde, M. Happel, F.-W. Eigler, A. Soliman, and O.-E. Brodde E191

Glucose kinetics in gluconeogenesis-inhibited rats during rest and exercise
L. P. Turcotte, A. S. Rovner, R. R. Roark, and G. A. Brooks E203

Capsaicin-sensitive nerves are required for glucostasis but not for catecholamine output during hypoglycemia in rats
X.-F. Zhou, K. H. Jhamandas, and B. G. Livett E212

Mechanism of sympathetic neural regulation of insulin, somatostatin, and glucagon secretion
T. Kurose, Y. Seino, S. Nishi, K. Tsuji, T. Taminato, K. Tsuda, and H. Imura E220

SPECIAL COMMUNICATIONS

Underestimation of glucose turnover corrected with high-performance liquid chromatography purification of [6-^{3}H]glucose
W. F. Schwenk, P. C. Butler, M. W. Haymond, and R. A. Rizza E228

No. 2. FEBRUARY 1990

The role of pituitary β-endorphin in mediating corticotropin-releasing factor-induced antinociception
K. M. Hargreaves, C. M. Flores, R. A. Dionne, and G. P. Mueller E235

Effect of hypoxia on atrial natriuretic factor and aldosterone regulation in humans
D. L. Lawrence, J. B. Skatrud, and Y. Shenker E243

Amino acid metabolism after intense exercise
J. T. Devlin, I. Brodsky, A. Scrimgeour, S. Fuller, and D. M. Bier E249

Effects of age and level of physical activity on plasma norepinephrine kinetics
E. T. Poehlman, T. McAuliffe, and E. Danforth, Jr. E256

Effect of physical activity on calciotropic hormones and calcium balance in rats
J. K. Yeh and J. F. Aloia E263

Inhibition of renin release by 14,15-epoxyeicosatrienoic acid in renal cortical slices
W. L. Henrich, J. R. Falck, and W. B. Campbell E269

Effects of epidermal growth factor on bone formation and resorption in vivo
P. J. Marie, M. Hott, and J. Perheentupa E275

Low-calcium diets increase both production and clearance of 1,25-dihydroxyvitamin D_3 in rats
J. Fox, J. E. Bunker, M. Kamimura, and P. F. Wong E282

The relationship between gluconeogenic substrate supply and glucose production in humans
F. Jahoor, E. J. Peters, and R. R. Wolfe E288

Effect of parathyroid hormone-like peptides on 25-hydroxyvitamin D-1α-hydroxylase activity in rodents
A. T. Walker, A. F. Stewart, E. A. Korn, T. Shiratori, M. A. Mitnick, and T. O. Carpenter E297

Neuroendocrine and gastric myoelectrical responses to illusory self-motion in humans
K. L. Koch, R. M. Stern, M. W. Vasey, J. F. Seaton, L. M. Demers, and T. S. Harrison E304

Electrophysiological response to thyrotropin-releasing hormone of rat lactotrophs in primary culture
P. Sartor, L. Dufy-Barbe, J.-B. Corcuff, A. Taupignon, and B. Dufy E311

Defective metabolic effects of norepinephrine and insulin in obese Zucker rat brown adipose tissue
A. Marette, A. Géloën, A. Collet, and L. J. Bukowiecki E320

Insulin-like growth factor I receptors in adult rat liver: characterization and in vivo regulation
N. Venkatesan and M. B. Davidson E329

Placental lactogen receptors in maternal sheep liver: effects of fasting and refeeding
M. Freemark, M. Comer, T. Mularoni, A. J. D'Ercole, A. Grandis, and L. Kodack E338

Energy expenditure in humans: effects of dietary fat and carbohydrate
W. G. H. Abbott, B. V. Howard, G. Ruotolo, and E. Ravussin E347

Absence of insulin-receptor downregulation in hepatocytes from hyperinsulinemic rats
S. Bottomley and P. Garcia-Webb E352

Placental-fetal glucose exchange and placental glucose consumption in pregnant sheep
J. E. DiGiacomo and W. W. Hay, Jr. E360

Paradoxically slow preadipocyte replication and differentiation in corpulent rats
G. Shillabeer, J. M. Forden, J. C. Russell, and D. C. W. Lau E368

Elevated 1,25-dihydroxyvitamin D_3 and intestinal calbindin-D9k in the toothless rat
M. F. Seifert, R. W. Gray, and M. E. Bruns E377

Role of triglyceride-fatty acid cycle in controlling fat metabolism in humans during and after exercise
R. R. Wolfe, S. Klein, F. Carraro, and J.-M. Weber E382

RAPID COMMUNICATIONS

Exercise increases susceptibility of muscle glucose transport to activation by various stimuli
G. D. Cartee and J. O. Holloszy E390

LETTERS TO THE EDITOR

Plasma protein-mediated transport of steroid and thyroid hormones: further comment
R. P. Ekins and P. R. Edwards; W. M. Pardridge and E. M. Landaw E394

ANNOUNCEMENTS

E398

No. 3. MARCH 1990

EDITORIAL REVIEW

Indirect calorimetry: methodological and interpretative problems
D. C. Simonson and R. A. DeFronzo E399

Elevated angiotensinogen mRNA levels in rat liver by nephrectomy
H. Iwao, S. Kimura, K. Fukui, A. Nakamura, T. Tamaki, H. Ohkubo, S. Nakanishi, and Y. Abe E413

Eicosanoid production in rabbit vascular tissues and placentas
G. P. Brown and R. C. Venuto E418

Mechanism for acute reduction of 1,5-anhydroglucitol in rats treated with diabetogenic agents
T. Yamanouchi, I. Akaoka, Y. Akanuma, H. Akanuma, and H. Miyashita E423

Influences of thyroid status and sympathoadrenal system on extrarenal potassium disposal
K. Kubota and S. H. Ingbar E428

Pancreatic and extrapancreatic galanin release during sympathetic neural activation
B. E. Dunning, P. J. Havel, R. C. Veith, and G. J. Taborsky, Jr. E436

Stimulation of porcine thyroid cell alkalinization and growth by EGF, phorbol ester, and diacylglycerol
N. Takasu, I. Komiya, Y. Nagasawa, T. Asawa, T. Shinoda, T. Yamada, and Y. Shimizu E445

Conversion to renin of exogenously administered recombinant human prorenin in liver and kidney of monkeys
S. Kim, M. Hosoi, F. Ikemoto, K. Murakami, Y. Ishizuka, and K. Yamamoto E451

Impaired insulin action but normal insulin receptor activity in diabetic rat liver: effect of vanadate
O. Blondel, J. Simon, B. Chevalier, and B. Portha E459

Model of the distribution and metabolism of a GnRH superagonist in dogs
D. Lacoste, B. Candas, M. Normand, and F. Labrie E468

Effects of glucose, 2-deoxyglucose, phlorizin, and insulin on food intake of lean and fatty rats
S. Tsujii and G. A. Bray E476

Intracerebroventricular infusion of RU28318 blocks aldosterone-salt hypertension
E. P. Gómez-Sánchez, C. M. Fort, and C. E. Gómez-Sánchez E482

Free amino acids in muscle: effect of muscle fiber population and denervation
J. Turinsky and C. L. Long E485

Isolation and incubation conditions to study heart mitochondrial protein synthesis
E. E. McKee, B. L. Grier, G. S. Thompson, and J. D. McCourt E492

Coupling of mitochondrial metabolism and protein synthesis in heart mitochondria
E. E. McKee, B. L. Grier, G. S. Thompson, A. C. F. Leung, and J. D. McCourt E503

Mitochondrial protein synthesis during thyroxine-induced cardiac hypertrophy
A. C. F. Leung and E. E. McKee E511

Pseudoketogenesis in hepatectomized dogs
C. Des Rosiers, J. A. Montgomery, M. Garneau, F. David, O. A. Mamer, P. Daloze, G. Toffolo, C. Cobelli, B. R. Landau, and H. Brunengraber E519

Sensitivity to Cd^{2+} but resistance to Ni^{2+} of Ca^{2+} inflow into rat pancreatic islets
P. O. Plasman, M. Hermann, A. Herchuelz, and P. Lebrun E529

IGF-II receptors and IGF-II-stimulated glucose transport in human fat cells
M. K. Sinha, C. Buchanan, C. Raineri-Maldonado, P. Khazanie, S. Atkinson, R. DiMarchi, and J. F. Caro E534

Glucose is required to maintain ATP/ADP ratio of isolated bovine cerebral microvessels
C. G. Gaposchkin, K. Tornheim, I. Sussman, N. B. Ruderman, and A. L. McCall E543

No. 4. APRIL 1990

Bioactive parathyroid hormone in pregnant rats and fetuses
A. Bourdeau, G. Manganella, C.-L. Thil-Trubert, C. Sachs, and G. Cournot E549

Sustained stimulation of aldosterone production by angiotensin II is potentiated by nickel
A. Spät, I. Balla, T. Balla, P. Enyedi, G. Hajnóczky, and T. Rohács E555

Regulatory effect of cholecystokinin on subsequent insulin binding to pancreatic acini
Y. Okabayashi, M. Otsuki, T. Nakamura, M. Koide, H. Hasegawa, T. Okutani, and Y. Kido E562

Glucagon-cortisol interactions on glucose turnover and lactate gluconeogenesis in normal humans
L. Lecavalier, G. Bolli, and J. Gerich E569

Attenuated bone aluminum deposition in nonuremic beagles with reduced bone remodeling
L. D. Quarles E576

Somatotropin in lactating cows: effect on response to epinephrine and insulin
S. J. Sechen, F. R. Dunshea, and D. E. Bauman E582

Voltage-dependent calcium currents in rat gonadotropes separated by centrifugal elutriation
C. Marchetti, G. V. Childs, and A. M. Brown E589

Regulation of ANG II and AVP receptors in isolated hepatocytes of pregnant rats
G. Massicotte, L. Coderre, J. L. Chiasson, G. Thibault, E. L. Schiffrin, and J. St-Louis E597

Myocardial metabolism in insulin-deficient diabetic humans without coronary artery disease
A. Avogaro, R. Nosadini, A. Doria, P. Fioretto, M. Velussi, C. Vigorito, L. Saccà, G. Toffolo, C. Cobelli, R. Trevisan, E. Duner, R. Razzolini, F. Rengo, and G. Crepaldi E606

In vivo studies on paracrine actions of pituitary angiotensin II in stimulating prolactin release in rats
M. K. Steele and L. S. Myers E619

Influence of cell heterogeneity on skeletal muscle lactate kinetics
M. J. Pagliassotti and C. M. Donovan E625

Role of cell type in net lactate removal by skeletal muscle
M. J. Pagliassotti and C. M. Donovan E635

Effect of 1,25 dihydroxyvitamin D_3 on isolated islets from vitamin D_3-deprived rats
B. J. L. Billaudel, A. G. Faure, and B. C. J. Sutter E643

ICV infusion of corticosterone antagonizes ICV-aldosterone hypertension
E. P. Gómez-Sánchez, M. T. Venkataraman, D. Thwaites, and C. Fort E649

Protein and leucine metabolism in maple syrup urine disease
G. N. Thompson, J. L. Bresson, P. J. Pacy, J. P. Bonnefont, J. H. Walter, J. V. Leonard, J. M. Saudubray, and D. Halliday E654

In vivo somatostatin, vasopressin, and oxytocin synthesis in diabetic rat hypothalamus
J. D. Fernstrom, M. H. Fernstrom, and R. P. S. Kwok E661

Contractile activity increases plasma membrane glucose transporters in absence of insulin
L. J. Goodyear, P. A. King, M. F. Hirshman, C. M. Thompson, E. D. Horton, and E. S. Horton E667

Dehydroepiandrosterone reduces cancellous bone osteopenia in ovariectomized rats
R. T. Turner, E. T. Lifrak, M. Beckner, G. K. Wakley, K. S. Hannon, and L. N. Parker E673

Triglyceride kinetics, tissue lipoprotein lipase, and liver lipogenesis in septic rats
S. Lanza-Jacoby and A. Tabares E678

Differential regulation of corticotropin-releasing hormone mRNA in rat brain
D. M. Frim, B. G. Robinson, K. B. Pasieka, and J. A. Majzoub E686

Glycogenesis and glyconeogenesis in skeletal muscle: effects of pH and hormones
A. Bonen, J. C. McDermott, and M. H. Tan E693

Pentobarbital reduces basal liver glucose output and its insulin suppression in rats
P. W. Clark, A. B. Jenkins, and E. W. Kraegen E701

Adenylate cyclase blockers dissociate PTH-stimulated bone resorption from cAMP production
I. R. Reid, C. Lowe, J. Cornish, D. H. Gray, and S. J. M. Skinner E708

Thyroidal and peripheral production of 3,5,3′-triiodothyronine in humans by multicompartmental analysis
A. Pilo, G. Iervasi, F. Vitek, M. Ferdeghini, F. Cazzuola, and R. Bianchi E715

MODELING METHODOLOGY FORUM

Parameter estimation: local identifiability of parameters
J. A. Jacquez and T. Perry E727

No. 5. MAY 1990

Effects of antimineralocorticoid RU 26752 on steroid-induced hypertension in rats
M. Kalimi, J. Opoku, M. Agarwal, and K. Corley E737

$PGF_{2\alpha}$ and PGE_2 binding to rat myometrium during gestation, parturition, and postpartum
M. Molnár and F. Hertelendy E740

Evolution of dexamethasone-induced insulin resistance in rats
L. Stojanovska, G. Rosella, and J. Proietto E748

Neural control of glutamine synthetase activity in rat skeletal muscles
B. Feng, M. Konagaya, Y. Konagaya, J. W. Thomas, C. Banner, J. Mill, and S. R. Max E757

Effect of diabetes on glutamine synthetase expression in rat skeletal muscles
B. Feng, C. Banner, and S. R. Max E762

Ischemia in normoglycemic and hyperglycemic rats: plasma energy substrates and hormones
J. Lundgren, A. Mans, and B. K. Siesjö E767

Interactive effect of body posture on exercise-induced atrial natriuretic peptide release
C. A. Ray, M. D. Delp, and D. K. Hartle E775

Role of 25-hydroxyvitamin D_3 dose in determining rat 1,25-dihydroxyvitamin D_3 production
R. Vieth, K. McCarten, and K. H. Norwich E780

[1-^{13}C; *methyl*-$^{2}H_3$]methionine kinetics in humans: methionine conservation and cystine sparing
